Mother tongues printed in italies belong to countries outside the Indian Sub-continent.

Names occurring after hyphen (-) have been introduced by the Linguist to indicate groupings.

\*Denotes that the mother tongue is unclassified in Linguistic Survey of India.

†Denotes that the mother tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

†Denotes that the mother tongue is unclassified by Grierson but is tentatively classified by the Linguist. Norme

Mother tongues printed in italics belong to countries outside the Indian Sub-continent.

Names occurring after hyphen (-) have been introduced by the Linguist to indicate groupings.

\*Denotes that the mother tongue is unclassified in Linguistic Survey of India.

†Denotes that the mother tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

†Denotes that the mother tongue is unclassified by Grierson but is tentatively classified by the Linguist.

Nors: The Death Rate is the number of annual death per 1,000 of the same sex calculated on the population of 1951.

<sup>\*</sup>Relates to the period 1951-58.

<sup>†</sup>Rates have been calculated on per thousand of live and still births.

<sup>\*</sup>All the 8 estates held directly by the Government were originally of Dinajpur district. After creation of West Dinajpur district these Latates became common estates. There is no paper in West Dinajpur district to show the demands of 1951-52 and 1952-55. No demand figure for the said periods has also been received from the Gollector, Dinajpur, East Pakistan.

<sup>\*</sup>The land revenue demand and collection figures relating to the post-zamindari abolition period being maintained according to the Bengali calender years, the figures could not be supplied according to the financial years. However, the Bengali years 1362 B.S. to 1368 B.S. approximately correspond to the financial years 1953-56 to 1961-62.

\*Filampur subdivision has been formed with the Kishanganj area of Bihar transferred to West Bengali with effect from 1.41 56. The figures relating to Islampur subdivision have, therefore, been furnished separately from 1363 B.S. corresponding to the financial year 1956-57.

The figures of cess demand of Islampur subdivision represent the assessments made under the Bihar Cess Acc.

## PART III

# VILLAGE DIRECTORY

This Directory renders an account of each Village and each Town

#### THE VILLAGE DIRECTORY

### Explanatory Note

The Directory renders an account of each Village, entered on the Jurisdiction Lists for each Thana maintained by the Director of Land Records and Surveys, West Bengal. For villages included in town figures are given for the town and not for the separate villages which it contains. In case of a municipal town figures are presented separately for each Ward. It gives the Jurisdiction List number, name, area of the village, number of occupied houses, Census households, total population, Scheduled Caste and Scheduled Tribe population, number of literates, and workers classified into the following nine Industrial Categories of Workers and Non-workers:

I As Cultivator

II As Agricultural Labourer

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

X Non-workers

These basic data are presented police stationwise first for the rural portion and next for urban portion in this Directory. A notional map of the Police Station has been given at the beginning of the Village Directory of each Police Station showing the Jurisdiction List number of each village and the location of town, if any, and inset map of the district has also been given to show the location of the Police Station in the district. An alphabetical list of villages has been given preceding the directory. This list shows the Jurisdiction List number of each village and the names of the villages arranged alphabetically and its population in 1951 and in 1961. The thana map and the alphabetical list together facilitate location of any village in the Village Directory as well as on the spot.

A village, as a general rule, is the revenue survey mauza. The uninhabited mauzas and the mauzas that have been completely merged in urban areas have been indicated accordingly. In respect of the

villages which are partly included in urban areas and partly outside the limits of a town, the particulars for the portion included in urban area have been clubbed together with the particulars furnished for the corresponding town and for the portion lying outside the town limits i.e., included in the rural area, the data have been show in the Village Directory against the corresponding mauzas. The area figures of the villages have been obtained from the 1951 Census Handbooks. For the police stations under Islampur Subdivision, village area figures furnished by Superintendent of Census Operations, Bihar have been used.

The area of the municipal towns has been presented according to the figures available from the respective municipalities. The area in respect of the non-municipal towns has been computed from the area figures of the constituting mauzas.

For the definition of a Worker and Non-worker and detailed description of nine Industrial Categories of workers, the Explanatory Note to the Primary Census Abstract and other economic tables in Part II of this Volume may be referred to.

Symbols will frequently be seen against village or town. They will indicate that the institutions offering the particular facilities which the symbol denots is situated within the village or town. These facilities are shown by symbols as explained below against the name of village and town:

(a) Schools: P → Primary Schools H → High Schools

(b) Medical facilities:
D. Dispensaries
Rhe Rural Health Centres
Hos Hospitals
Mcw. Maternity Child Welfare Centres

(c) Post Office:
Po == Post Office

(d) Electricity:
E == Electricity

(e) Library: L= Library

Where figures like 5P or 2H or 2Hos etc., occur they denote that the mauzs or the town has five Primary Schools or two High Schools or two Hospitals etc.
